

Over 40 Years Of Dependable Equipment For Progressive Farming

KMC POULTRY HOUSE CLEAN OUT EQUIPMENT

Standard Model House Cleaner 4200

Low Profile Model House Cleaner 4200LP

- Can be used for total cleanout or to remove wet, caked litter while reconditioning and allowing finer particles to be sifted back on floor to reduce replacement costs.
- Cleans close to walls to save time and labor expense.
- Unloads quickly to avoid waiting and can be used for spreading or replacing shavings with optional spreading attachment.
- Overhead conveyor keeps litter spread evenly for full capacity loading.
