**Job Description:** KMC is seeking a qualified candidate for Design Engineer. The following list below are the responsibilities and job description of a KMC Design Engineer:

- Modify existing KMC products to improve functionality and/or reduce cost.
- Research, Design, and Prototype new products and ideas.
- Use CAD software to create 3D models of new designs and 2D drawings for manufacturing.
- Analyze designs for manufacturability and cost-effectiveness.
- Ensure designs meet performance and safety standards.
- Field test prototypes and make design changes to meet specifications.
- Prepare designs for release to production.
- Create customer documentation (i.e., Parts Books, Owner's Manuals).
- Assist customers and sales department with equipment questions.
- Other tasks as assigned.

**Benefits:**

- Competitive salary based on qualifications and experience.
- Excellent medical insurance.
- Retirement through participation in KMC's Employee Stock Ownership Plan (ESOP).
- Paid vacation time.

**Qualifications:**

- Degree in Mechanical or Agricultural Engineering (Preferred).
- Agricultural experience is a plus.
